

## Information for parents about school dinners

Dear parents and guardians,

The City of Kiel wants to give all school children equal opportunities for education. Children need a warm meal every day in order to be able to learn well.

Families who do not earn much money receive support from an educational package. They get money for

- school supplies,
- sports clubs and
- school dinners.

Parents then only have to pay 1 Euro per school meal for their child. However, many families cannot even afford this. Up to now, the foundation “Bildung macht stark” has been supporting children from these families by paying the remaining Euro.

Unfortunately, the foundation can now no longer help all school children because there were not enough donations.

As from 1 August 2017, the foundation will only be able to help children at primary schools and support centres.

If your child is in Class 5 or above, you have to pay the 1 Euro per school meal yourself. The canteen that delivers the school dinners will be in touch with you soon.

Best regards,

.....
